

All I Ever Wanted

Chuck Wicks

Girl you got me goin', yeah I think you know it
Oh, I'm ready for this ride
So come on take my hand 'cause only you
You understand how to kick this feelin' into Drive all night with me, sing our favorite songs to sleep
Under the stars on the hood of our car
It's all I ever wanted, all I ever wanted was to
See you in the pale moon light just the way you look tonight
And maybe someday if love comes our way We'll be walkin' in the meadow in the early spring
You'll be twirlin' in a sun dress wearin' my ring
Can you see it? Girl I believe that it's true
All I ever wanted, all I ever really wanted was you If life is what you make it, here's my chance I'll take it
You know I wanna make you mine
I have this picture in my mind, you were in it all the time
So baby hold on tight and Drive all night with me, sing our favorite songs to sleep
Under the stars on the hood of our car
It's all I ever wanted, all I ever wanted was to
See you in the pale moon light just the way you look tonight
And maybe someday if love comes our way We'll be walkin' in the meadow in the early spring
You'll be twirlin' in a sun dress wearin' my ring
Can you see it? Girl I believe that it's true
All I ever wanted, all I ever really wanted was you All I ever really wanted was to
See you in the pale moon light just the way you look tonight
And maybe someday, if love comes our way We'll be walkin' walking in the meadow in the early spring
You'll be twirlin' in a sun dress wearin' my ring
Can you see it? Girl I believe that it's true
All I ever wanted, all I ever really wanted
All I ever wanted, all I ever really wanted was you, you
