

# Someone Who Can

## Yuna

Excuses are overrated  
Apology not accepted  
When I catch you with someone else  
Stop victimizing yourself When you want someone to hold onto  
I won't be there  
When you want someone to lie to  
I won't be there Somebody will always understand  
Somebody will always care  
You didn't really play your part well  
I'll find someone who can  
Somebody is gonna love me  
And I'm gonna love them back  
You didn't really play your part well  
I'll find someone who can She doesn't know who you are  
Too young to understand  
And you don't even know what you want  
And I've given you everything So when you want someone to love you  
I won't be there  
When you cry alone in your room  
I won't be there Somebody will always understand  
Somebody will always care  
You didn't really play your part well  
I'll find someone who can  
Somebody is gonna love me  
And I'm gonna love them back  
You didn't really play your part well  
I'll find someone who can  
I'll find someone who can I don't wanna feel this again  
I don't wanna feel all this pain  
I don't wanna feel this heartbreak  
I just wanna get on this plane Somebody is gonna love me  
(Somebody is gonna love me)  
And I'm gonna love them back  
(And I'm gonna love them back)  
You didn't really play your part well  
I'll find someone who can Somebody is gonna love me  
(Somebody is gonna love me)  
And I'm gonna love them back  
(And I'm gonna love them back)

You didn't really play your part well  
I'll find someone who can
