

# Kickin' Ass

[Hugh Laurie](#)

You know I like everything about you  
The way you're talking, it's quite exciting  
Keep it up and I hide my face  
The way I'm eatin' is a social disgrace I want a lot of this loving feeling  
The way you trust me and I like the bleeding  
I want a lot of this loving feeling  
The way you trust me and I like the bleeding It's really neat driving in this car  
And shut the door  
Let's hope to God we can get it right  
I know a place we can rock alright Nobody's gonna catch you and get a fright  
You know the little girl who makes me  
The big one who takes me And now it's later and I'm washing my hands  
It's the arena, the promised land  
And now it's later and I'm washing my hands  
In the arena of a promised land Fighting on price, sitting on a stump  
Someone's gonna get you then a thumb, thumb, thumb  
Fighting on price, sitting on a stump  
Someone's gonna get you then a thumb, thumb, thumb I know it's funny when it gets so big  
But I know you're gonna dig everything I give  
For sure you say, it's a, a lot of meat  
But you get it all in and it's a hell of a treat now, now 'Cause I'm a man who's sick but I got class  
'Cause you only get respect when you're kickin' ass  
I'm a man who's sick but I got class  
'Cause you only get respect when you're kickin' ass Well, I'm a man who's sick but I got class  
'Cause you only get respect when you're kickin' ass
