

# Exogenesis: Symphony Part 1 (Overture)

## Muse

Aping my soul,  
You stole my overture,  
Trapped in Gods program,  
Oh I can't escape

Who are we?  
Where are we?  
When are we?  
Why are we?  
Who are we?  
Where are we?  
Why, why, why?

I can't forgive you,  
And I can't forget

Who are we?  
Where are we?  
When are we?  
Why are we?  
Who are we?  
Where are we?  
When are we?  
Why are we in here?
