

Show Me

Usher

How's life?
Great
Everybody's going through something
They gotta get over it
You can't go around
Let's just enjoy the time
The night is young, you know
We've just begun
Let's have some fun until the moon turns to the sun
Look out the deejay's got this party jumping
It's easy to let loose when you sipping something
Relax, it's what you deserve
There's no need to be reserved, no
Show me what you're made of
We'll be going, going all night, can you stay up
Show me what you're made of
We'll be going, going all night, can you stay up
Show me, what you came here for
Show me, what you came here for
Show me, what you came here for
Telling you can't control what you can't have
You're here, to enjoy yourself
But time, in the back of your mind
Spinning what's left of it on the floor
Have another round and just enjoy this party
Put your fear aside, go head and grab somebody
Ain't no limit, no such thing is too much
And if you cause a line in the V-I
I'm waiting on you to show me
Show me what you're made of
We'll be going, going all night, can you stay up
Show me what you're made of
We'll be going, going all night, can you stay up
Show me, what you came here for
If you find yourself not knowing what to do
Just lift you hands up high and improvise
And don't you worry about what they think of you
All you can do is just live your life
Whoa, now is the time
Now is the time
So come on show me what you're all about
Right here, right now

Yeah it's the perfect time and place Show me what you're made of
We'll be going, going all night, can you stay up
Show me what you're made of
We'll be going, going all night, can you stay up Show me, what you came here for
Show me
