# Bubblegum Drops

## Cameron Sanderson

Your lips taste like bubblegum drops
And your lustre love hits all the right spots
Don't be shy, I'm not taking my time with you
I wanna be yours
I'm not gonna kiss your lips unless you feel like we're together
This doesn't have to be forever, tonight is all that matters
Your heart is mine for tonight, your heart is mine for tonight
This doesn't have to be forever, tonight is all that matters
Your heart is mine for tonight, your heart is mine for tonight
Your lips taste like bubblegum drops
And your lustre love hits all the right spots
Abominable, you're physical
With your love
And this simple conclusion
You're killing my lust
