Finish Line

Thorne Empire

I got a new suit
It was tailor made
And I bought a new tie
To look handsome tonight
Boy, you were right
It was just a matter of time
Look at the stars
Oh, they are sure shinning tonight
So, come on out
Have some champagne and wine
This is the night
This is the night when we show the world who we are
The world who we are
The world who we are
Show the world who we are

Everyone welcome to the finish line
It sure has been a long ride
Everyone I know better have grand of a time
Cause the way we have lived
It sure has been one hell of a ride
All of my friends are in the room
I am raising a glass to all of you

You are all on my tap
Bartenders pour out the wine
And dear friends don't be sad
Cause this game is not over yet
It's just one of the rounds
Tomorrow another begins
Tomorrow another
Tomorrow another begins
It doesn't mean I am saying goodbye
It doesn't mean I am saying goodbye
It doesn't mean I am saying goodbye
It doesn't mean I am saying goodbye

Everyone welcome to the finish line
It sure has been a long ride

Everyone I know better have grand of a time
Cause the way we have lived
It sure has been one hell of a ride
All of my friends are in the room
I am raising a glass to all of you

And to all of those who aren't here tonight
I will raise another two
Cause without all of you
It wouldn't have been one hell of a ride
It sure wouldn't have been one hell of a ride
One hell of a ride
One hell of a ride

Everyone welcome to the finish line
It sure has been a long ride
Everyone I know better have grand of a time
Cause the way we have lived
It sure has been one hell of a ride
All of my friends are in the room
I am raising a glass to all of you
