Sugarcult

wake up all alone
sending postcards back to home...
on the road if the medication works
could i be the way i was?
in control you painted a picture
i'm the worst type of sinner...
you know you painted a picture
happier than i can afford nobody can save me
nobody can save me
nobody can say what i'll do if i'm alone sign off

sign off (nobody can save me)
sign off
sign off (nobody can save me)
