Surely

Warner Mack

Surely I'm still on your mind just a little bit
Surely there's a mem'ry that you can't forget
How could a love so strong suddenly just fade and die
There must be a reason why darling surelyI couldn't find the way to make you love me though I tried every thing I knew how
And I just can't walk away with a mem'ry when I love you more than ever right now
Surely I'm still...
There must be a reason why darling surely
