

# The Past

[Billy Ray Cyrus](#)

Back when I was young  
When I was just a kid  
The foolish things we done  
The secrets that we hid Out on our playground  
Where I first touched your lips  
Our first taste of love  
Upon our fingertips Now, I go back in time  
To a place they call the past  
Where dreams are make believe  
And love can really last Sometimes, it's all so real  
And it's always way too fast  
This crazy world we live in  
The past Now, I go back in time  
To a place they call the past  
Where dreams are make believe  
And love can really last Sometimes, it's all so real  
And it's always way too fast  
This crazy world we live in  
The past
