

Flowers In Our Hair (Single)

All About Eve

Where have the flowers gone sun-children
Your shirts are loud and your hair is long
Now do you ever think we'll make it
Something more than a uniformAnd we're almost there
We learn to love and we learn to give
And we earn the flowers in our hairWhere has the vision gone sun-children
Colors glow but your eyes are closed
I swear I still believe we'll make it
In your eyes I see your soulAnd we're almost there
We learn to love and we learn to give
And we earn the flowers in our hair my friend
So take my hand
One day is always too far away
