

# Refill My Soul

## Entwine

Way far beyond  
Inside of me  
Where I hide to be alone  
For my beloved  
Sometimes I need my space  
Please try to get long  
(with me)Fill my whole life  
With your heart of gold  
You're my suicide  
The sweetest of them allSoften my fall  
Thru' all these fears  
When I try to get along  
You're my beloved  
In your embrace I'll fall  
There I'm safe and not alone
