

Lifetime In a Moment

Stratovarius

„Omnia sol temperat, purus et subtilis.
Novo mundo reserat faciem Aprilis."From the dark I watch you go away
I will never see you againEvery passing day prolongs my pain
I am slowly fading Into the voidVoice without a sound
A sound that no one cares to hear
A second drowned
You live, your life just passed awayMoment in a lifetime
Lifetime in a momentSeize the day don't let it slip away
Cherish every moment, before it's goneVoice without a sound,
A sound that no one cares to hear
A second drowned
You live, your life just passed awayMoment in a lifetime
Lifetime in a moment
