It's All Good

Kyle Tredway

It's all good and gettin even better
Blue skies only sunny weather
It's a perfect day ain't nothing wrong
cause everything's alright

It's all good and when we get together
why not make it last forever
when you got what matters
It's all good and gettin even better

Don't need to make a million
Don't need to rule the world
if the simple things in life are free
then you've got, more than enough

Sophisticated conversations
where you cant even spell the words
Don't mean a thing
cause you got everything you need and ever want
when you got love...oh

It's all good and gettin even better
Blue skies only sunny weather
It's a perfect day ain't nothing wrong
cause everything's alright

It's all good and when we get together
why not make it last forever
when you got what matters
It's all good and gettin even better

Don't need fame or recognitions
Gold records, mansions or fast cars
if the simple things in life are free
then you know you're rich as a rich can be

Money never buys what you feel inside for someone
everything you own comes and it goes for real
I don't mean a things
Cause you got everything you need or ever want

when you got love...oh

It's all good and gettin even better
Blue skies only sunny weather
It's a perfect day ain't nothing wrong
cause everything's alright

It's all good and when we get together
why not make it last forever
when you got what matters
It's all good and gettin even better

Now you're living the high life
everythings is so right you've got it all
But when we're together there's so much more
maybe that's what love is for

(Guitar solo)

It's all good and gettin even better
Blue skies only sunny weather
It's a perfect day ain't nothing wrong
cause everything's alright

It's all good and when we get together
why not make it last forever
when you got what matters
It's all good and gettin even better

Its all good
