

# One True

## Mishka

One true love I like, I love you  
One true love I like, I love you  
I hear what you're saying  
I see what you do some things are changing  
But not much is new under the sun I One true love I like I love you  
If we can't find the balance  
How can we dance?  
If we can't find the balance  
There's no chance One true love I like, I love you  
So give I rain and a little sunshine  
See the rainbows again  
And know everything's all fine  
One true love I like I love you Why is it greens make I red  
Mountains bring I low  
Why is it greens make I red  
Mountains bring I low  
I don't know  
One true love I like I love you
