Achilles Heel

Toploader

Goodbye to the sky
I know I can't fly, but I feel love
Do you know how I feel?
You are my Achilles heelHello to below, I feel love flow
Like a river flow
You and I standing still
You are my Achilles heelFeeling free, yeah, what about me?
Well you gotta give it up 'cos I feel love
Do you know how I feel?
You are my Achilles heelGoodbye to the sky
I know I can't fly, but I feel love
Do you know how I feel?
You are my Achilles heelFor there's a child in your eyes
And the child never dies
So keep the dream aliveWith the aid of second sight
I can push with all my might
To make a statue in the sky
Of my Achilles heelSmall fry, don't know why
I gotta get high just to love life
You are my highs and lows
From my head to my toesI said hey la, will I go far?
Will I go far 'cos I love life
Do you know how I feel?
You are my Achilles heelI said oh no no, will I go slow?
Will I go slow, when the feeling flowsFor there's a child in your eyes
And the child never dies
So keep the dream aliveWith the aid of second sight
I can push with all my might
Make the statue in the sky
Of my Achilles heelMy Achilles heel
My Achilles heel
My Achilles heelWell, you're feeling free
So what about me?
I said hello and goodbye
But I don't know whyWell, while we're small fry
On the line
With my Achilles heel
My Achilles heel
My Achilles heel
