Disco Heat

Calvin Harris

Inside me, inside me is a flame
That burned brighter anytime you came
Gets in the way when I'm alone with you
But disappears if I'm with someone newIt learnt how to fit into my foreplay
With my skills our love was going okay
Until the night when we were on the phone
You're moving on what betterInside me, inside me is a flame
That burned brighter anytime you came
Gets in the way when I'm alone with you
But disappears if I'm with someone newIt learnt how to fit into my foreplay
With my skills our love was going okay
Until the night when we were on the phone
You're moving on what better
