Cool Love

Kim Lenz

The city's burning me out
It's time to make tracks
Let's hit the highway
And never look back
Just you and me
Take care of ourselves
Don't have to answer to anyone else ...Cool love
It makes me feel good
It's all that I wantCool love
It feels like dancing on the edge
Of a knife
Oh yes, I'm having the time of my life ...
Cool loveBefore I met you
I was just doing time
My heart on ice
No love on line
But when I saw your face
I saw a new way out
I know you know
What I'm talking aboutThe night is ready
The coast is clear
Come on, come on let's disappear
