

# Oppression

## Behold The Messenger

O ho pression  
You preyed on us when we sleep  
Oppression  
You chased after the tired, the poor, the weak  
Oppression  
You know you mean only harm  
Oppression  
You reach out with your long arm  
But oppression  
I won't let you near me, oh no  
Oppression  
You shall learn to fear me, yes you will  
Oppression  
You seek population control  
Oppression  
To divide and to conquer is your goal  
Oppression  
I swear that hatred is your home  
Oppression  
You just won't leave bad enough alone  
  
But oppression  
I won't let you near me, oh no  
Oppression  
You shall learn to fear me, yes you will  
Oppression  
I don't see how you sleep  
Oppression  
For your bleeding conscience I weep  
Oppression  
You may have the dollar on your side  
But oppression  
From the gospel truth you cannot hide  
And oppression  
I won't let you near me, oh no  
Oppression  
You shall learn to fear me, yes you will  
Oppression  
I won't let you near me, oh no

Oppression  
You shall fear me, yes you will
