

# The Pickin' Shed

## Ashton Shepherd

Hey, hey now  
Don't you wanna come down  
bring your guitar  
here we play music with our own sound  
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed I remember  
the first time I walked through the door  
I felt at home though I'd never been in there before  
the band was playing and I sang a few songs  
I gotta admit I was hooked from then on Hey, hey now  
Don't you wanna come down  
bring your guitar  
here we play music with our own sound  
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed it's the place  
we built for the music that we play  
or you can shoot pool or you can throw darts any day  
it's like our own private bar that's open every night  
there ain't no closin' time  
and no rules to go by Hey, hey now  
Don't you wanna come down  
bring your guitar  
here we play music with our own sound  
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed And there's  
never any pressure  
You can just relax  
And if you ever hang out here  
I bet you're gonna come back Hey, hey now  
Don't you wanna come down  
bring your guitar  
here we play music with our own sound  
a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shed right here in  
our backyard  
at the pickin' shed
