The Pickin' Shed

Ashton Shepherd

Hey, hey now
Don't you wanna come down
bring your guitar

here we play music with our own sound

a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shedI remember

the first time I walked through the door

I felt at home though I'd never been in there before

the band was playing and I sang a few songs

I gotta admit I was hooked from then on Hey, hey now

Don't you wanna come down

bring your guitar

here we play music with our own sound

a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shedits the place

we built for the music that we play

or you can shoot pool or you can throw darts any day

its like our own private bar thats open every night

there aint no closin' time

and no rules to go byHey, hey now

Don't you wanna come down

bring your guitar

here we play music with our own sound

a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shedAnd there's

never any pressure

You can just relax

And if you ever hang out here

I bet you're gonna come backHey, hey now

Don't you wanna come down

bring your guitar

here we play music with our own sound

a lot of our friendship and music's been born and bred right here in our backyard at the pickin' shedright here in

our backyard

at the pickin' shed
