

# Happiness

## Jonathan Jeremiah

What you gonna do?  
What you gonna do with people like that?  
What you gonna say  
What you gonna say that will make them change their minds

Woo you gonna find  
Who you gonna find to listen anyway  
Where you gonna go,  
Where you gonna go to try and get it straight  
I once found the recipe, for what to do to cure my needs  
I packed some things just what I need  
Only bare necessities  
Asked Mrs Walsh to feed my cat  
Calling Lord Tate to tell him that  
I'm going home where my people live  
Need a little bit of happiness, yeah

Who's it gonna be  
Who's it gonna be who'll tell it like it is  
Who you gonna blame  
Who you gonna blame for all our differences  
Where's it gonna end  
Where's it gonna end if anywhere at all  
Where you gonna go  
Where you gonna go if you can't take it all?

I once found the recipe, for what to do to cure my needs  
I packed some things just what I need  
Only bare necessities  
Asked Mrs Walsh to feed my cat  
Calling Lord Tate to tell him that  
I'm going home where my people live  
Need a little bit of happiness, yeah

Write a little note and apologize  
To the next door so they realize  
Call up little Max and her sister Jean  
Say sorry for inconveniencing  
Order a cab, take it to, the bus station up on 42  
I'm going home, where my people live

I need a little bit of happiness yeah  
I need a little bit of happiness yeah  
I need a little bit of happiness yeah  
I need a little bit of happiness yeah
