

# Yes I Can

Styx

So they say that a man  
Can't live in this world  
If he's wearing his heart on his sleeve  
I canAnd they say that a man  
Cant understand  
What a woman needs when she cries  
I can, I canAnd I can see you standing in the yard  
Tending the roses in your garden  
The sun is shining through your cotton dress  
And I will freeze this moment here in time  
I could live forever in your garden, oh yes  
Yes I canThe fool doesn't know  
What he's missing the most  
It's a bitch and a place to be in  
Here I amHow would I know  
I could give up the ghost  
And still hold all your dreams in my hand  
Here I am, here I amAnd I can see you standing in the yard  
Tending the roses in your garden  
The wind is blowing through your golden hair  
And I will freeze this moment here in time  
I could live forever in your garden, oh yes  
Yes I canAnd I can see you standing in the yard  
Tending the roses in your garden  
The sun is shining through your cotton dress  
And I will freeze this moment here in time  
I could live forever in your garden, oh yes  
Yes I canAnd I can be your man  
Yes I can
