

Till a Better Memory Comes Along

Mark Chesnutt

See the lines in my face,
There's one for every day
I've lived without you
And held you only in my mind See these hands how they shake,
How long will it take
Before I leave you in the past
Where you belong One day I might forget but right now
I'm not that strong
So I'll hold on
'Til a better memory comes along If someone could really touch me
The way you used to do
If she could find one single feeling
That didn't start with me and you
Maybe then I might forget
But right now I'm not that strong
So, I'll hold on
