

Toot It And Boot It (remix)

Yg

Now we can play but you can't stay

you gotta go you gotta go

Now we can play but you can't stay

you gotta go you gotta go

[Chorus - YG:]I met her in the club

then I said wassup

I took her to the crib

and you know I fucked

yea toot it and boot it

toot it and boot it

toot it and boot it

thats why I toot and boot it

woh oh [4x]

yeah

[50 Cent:]First time I met her, I aint know she was a freak
now I give her a girlfriend when she want something to eat

she likes her, I love us

them both my bitches nigga don't touch

we got an open relationship

so I fuck with whoever I wanna fuck with

champagne pop, the party it don't stop

after the after party better ask somebody

than it's back to the crib, this the way I live

she toot it then I boot it out

I chew a muthafucker chick

she know how I get down

Tupac I get around

give me California love right at back of my truck

[Chorus - YG:]I met her in the club

then I said wassup

I took her to the crib

and you know I fucked

yea toot it and boot it

toot it and boot it

toot it and boot it

thats why I toot and boot it

woh oh [4x]

yeah

[YG:]girl let me toot that boot that stop actin stupid
acting like you dont know me like who that
walked in the club but I'll fly things
I'm in the back girl you know where to find me
and I love how she think im cute
and she dont even wanna tell me what she wanna do
it's me and my crew her and her friends
and they all trying to leave with us when the club ends
and she toot it from the back and you know she made it clap
and you know I run it back like
only for one night and she know I'm on like a switch on light
hey girl I can have you feelin right
I can supply the pipe
just make sure its tight
we can do it all day only for one night
and after that you gotta go
[Chorus - YG][YG:]I toot it to the left I toot it to the right
fuck with me we gonna do it all night
I seen a bad bitch I swing my hat back
and after I hit its on my back
cuz I toot it and boot it, and made her feel stupid [2x]
[Chorus - YG]
