

Pleasure (Interlude)

Trey Songz

Would you mind if i speak to my lady for a minute (whoa)

I've been yearnin to hold your body close to mine tonight

Is that alright

I've been missing you and your love

Your smile your touch girl

Look into your eyes and see the sun rise

So beautiful to me

You know what I like to see

Want you put it on for me (put it on)

Want you put it on for me (put it on put it on)

Baby put it on (put it on)

Baby put it on (put it on put it on for me)

Please get your (your lips ready) lips ready

For me

For me

For me
