

# Blood On the Snow

## Erasure

Blood on the snow of winter  
Back are the eyes of coal  
Glittery leaves a splinter  
Spinning a flake of gold  
Melt away with my heart  
Blow it into the ash  
Buried deep in the heart of the ballerina starStar don't lose your shine  
Be sure to light the way  
Your essence is divine  
For these three gifts we bring  
It's only a small offering of timeSpreading out like a blanket  
For our tiny souls to keep  
Sparkling pins and needles  
Piercing a stream so deepWell away in my dream  
Is my heart made of tin?  
Melt it into a drop  
Frozen particles of iceStar don't lose your shine  
Be sure to light the way  
Your essence is divine  
For these three gifts we bring  
It's only a small offering of timeOooooooooo  
Ahhhhhhhhh  
Aaahhhhhhhh  
AaahhhhhhhooooooStar don't lose your shine  
Be sure to light the way  
Your essence is divine  
For these three gifts we bring  
It's only a small offering of time
