

# Back to You

## Come And Go

Well, 18 stars just died  
I'm all burned out and feeling high  
I wish aloud for time  
To find out what it's like

Driving alone in the rain as I'm headed up the wayside  
Wondering what is to gain as I'm living my life  
Well I've got a vision of you  
May my wishes come pull me through  
And I'll give up on the truth  
Until I'm  
Until I'm back to you

Well, 18 stars just cried  
I'm all blown out and feeling high  
I wish aloud for time to find me another dime

Driving alone in the rain as I'm headed up the wayside  
Wondering what is to gain as I'm living my life  
Well I've got a vision of you  
Well, may my wishes come pull me through  
And I'll give up on the truth  
Until I'm

Yeah!

### Instrumental

Driving alone in the rain as I'm headed up the wayside  
Wondering what is to gain as I'm living my life  
Well I've got a vision of you  
Well, may my wishes come pull me through  
And I'll give up on the truth  
Until I'm  
Until I'm back to you
