Suddenly You

Ed Motta

Ever wish sometime
To be alone while time just passes
Sublime live

There will be sunshine
There to console and make you laugh
And wonder why

Seems - so long since I dialed your phone
In need - too long to be right or wrong
Feelin' - your voice bringing my love on
Love yeah - but until I see ya... I'm scared

Never saw sunshine
Until you stepped into my path
Now I'm blind

And nervous deep inside
Cause you are the only one I have
In my life
