

Rivals

Coal Chamber

You spit in my face
You reek all over this place
Try to bend my will
Just to get your thrills
After all this time
You'd think it all be fine
But it feels out of line
It's so... hateful
Jealousy reigns
It causes so much pain
But it helps to eliminate
The un... faithful!

I just want to say this to you
You'll never be anything without me
I just want to say this to you
You'll never be anything without me
We're rivals!!!
We're rivals!!!
Forever be
Rivals!!!
We're rivals!!!

Forever be You never lent a hand
I could not understand
Why I was sailing with the damned
It's so... shameful
There's something to be said
For all this waking of the dead
For all the lies that you've said
You're un... stable
There's something to be said
For all this waking of the dead
I just want to say this to you
You'll never be anything without me
I just want to say this to you
You'll never be anything without me
We're rivals!!!
We're rivals!!!
Forever be
Rivals!!!

We're rivals!!!
Forever beAnything goes
Anything goes
Anything goes!!!
The things you've done in the dark of the night
Anything goes
Will be your undoing
When it all comes to light
Anything goes
It's high time I speak up
Your loyalty slides, down
I saw your loyalty, slide!!!I just want to say this to you
You'll never be anything without me
I just want to say this to you
You'll never be anything without me
We're rivals!!!
We're rivals!!!
Forever be
Rivals!!!
We're rivals!!!
Forever beAnything goes
Anything goes
Anything goes!!!
We're rivals to the end!
We're rivals
We're rivals, to the end!
