

# The Beginning of the End

**Doug Stone**

I miss the changes taking place  
thought i felt warmth in your embrace  
all along your smiling face had a way of pulling me in  
i didn't see all of the signs i guess that's why they say love is blind  
you left me to realize the beginning of the endCHORUS  
now its me that's left holding on to the only love i've ever known  
picking through pieces and never seem to think  
how did it come to this the beginning of the endIn spite of all the pain i'm in  
i'd let you break my heart again  
relive those feelings i felt back then  
that illusion of love that you give  
its hard to see me without you  
broken in pieces torn into trying hard  
just to make it through the beginning of the endRepeat Chorus  
Repeat Chorus
