

# Be Still (ft. Janelle Mon  e)

## Big Boi

[Chorus]

Be still young heart  
Never will you fall apart  
Be still young heart  
Never will you fall apart  
Be wise my dear, you must, learn to just be still  
Until you really really know  
Show me you're right, shine your light  
I wonder when will I know To hell if I don't pray  
Like a mannequin in the window I don't say  
A, word, I like to sit back, observe  
My heart says do not disturb, and yours  
Is like a doorknob, everybody get a turn (yeah)  
Now that's a turnoff, girl, I'm not concerned  
More like the early bird tryin' to get the worm worm  
But not on those terms, you got on my nerves  
Say I don't deserve you, you're gonna learn  
Treat it like a perm, leave it be or let it burn (burn)  
Eat 'em like an urr-ange, orange  
So when they on the verge of leavin' it don't get borin'  
Foreign trips are taken  
Just to see your smiley faces, time's a-wastin'  
And I don't like to waste no time  
You can be down or, yeah [Chorus] I love bein' in love (bein' in love)  
Then you let me down, turned my heart around  
Givin' up on love, makes my ocean drown  
You lived in my heart  
Secret melodies haunt me at night  
Maybe lies and lullabies  
This is my last farewell  
You let me down [Chorus] Yeah  
From behind the Cadillac do'  
Grip this wood, slide around real slow  
Just thinkin', mind blown  
As I glare through the smoke tinted windows  
And be still [Chorus]
