

1, 2, 3 Goodbye

Demi Lovato

Take care of yourself, darling
I guess, I guess this is goodbye
Tomorrow's coming quicker than yesterday came today
I guess this is goodnight
'Cause we've all got one last night together
So, let's start the party
You know we rocked
Promise you won't forget me
So these moments spent are coming to an end
I'm counting seconds until next time begins
Listen
1, 2, 3, 4, 5, 6, 7, 8, 9
We couldn't change it if we tried
1, 2, 3, 4, goodbye
We've all said before
Our time is here
But it's never meant a thing until we began to tear
And I'll be aching before and after we depart
From remembrances of the very start
The grand memories together
The grand memories together

Now here I am
It's your song I'll be singing
You're the voice I hear inside my head
So these moments spent are coming to an end
I'm counting seconds until next time begins
Listen
1, 2, 3, 4, 5, 6, 7, 8, 9
We couldn't change it if we tried
1, 2, 3, 4, goodbye
We raised our voices
We followed our dreams
One thing
'Who will I be?' you ask
Well, we'll never be too cool for Camp Rock 3
So these moments spent are coming to an end
I'm counting seconds until next time begins
Listen

1, 2, 3, 4, 5, 6, 7, 8, 9
We couldn't change it if we tried
1, 2, 3, 4, goodbye
