Love Is a Cry

Evans Deep & Annuli

I wanna feel your heartbeat
I wanna feel you near

I wanna disappear
Just let us stay here
So let me take you with me and now weâ€™re sole and free
Let it off, just between us

Come with me
Close your eyes
Hold me tight
Give me life
Donâ€™t be scared
It's just fear
Let it off
Baby here

I wanna feel your breath
I wanna feel you near
I wanna disappear
Just let it us all stay here
So let me take you with me
Let if off,

So let me take you with me and now weâ€™re sole and free
Let it off, just between us

So let me take you with me and now weâ€™re sole and free
Let it off, just between u

Come with me
Close your eyes
Hold me tight
Give me life
Donâ€™t be scared
Itâ€™s just a fear
Let it go, baby
Here
