Thick As Thieves

Cavo

We are the left behind
Lost on the roads you followed
We are the compromise
Weve opened up our eyes
Fight the hand that feeds you lies
This time we make it right
Dont need a reason tonight
So sick of waiting for something to change my lifeChorus:
Hey hey, the soul lives for the feeding
Hey hey, thick as thieves we are the feeling
Hey hey the soul lives for the feeding
Hey hey, thick as thieves we are the feelingWell never fall in line
And walk the roads you followed
We are the ones who rise
Just open up your eyesFight the hand that feeds you lies
Its time we make it right
Dont need a reason tonight
So sick of waiting for something to change my life
Chorus:
Hey hey, the soul lives for the feeding
Hey hey, thick as thieves we are the feeling
Hey hey the soul lives for the feeding
Hey hey, thick as thieves we are the feeling
