

Too Perverted

Jeru the Damaja

Ain't nothin' worse than a wack MC
Unfortunately that's all that surrounds me
So I come to crush the unstable structure
It's the return of the dopest Brooklyn motherfucker To ever ignite the mic, get it right
Mad respect, pimps, grap your hoes, punks, grab your checks
What's next, pure nonsense and the style ya flex
And you're so bloody pussy, you need a KotexLatex because they're drippin' vaginal juices
So many so called gangsta niggas and their booty producers
Now watch the act that's vanishin'
Gold and platinum but who gets the publishin'
Not to rub it in, drop it in your box, now your dubbin' My company fucked up my projects momentum
But I'm still winnin' 'cause I'm a winner
Came to the table with snakes they had snakes on they're plates
Plus' niggas on they're plates, they put figures in my plate I took the loot unscathed 'cause I couldn't dine wit
'em
See 17, age 19 [Incomprehensible]
On a podium, at this time you are rewindin'
And like solar and lunar, you're clockin', it's too perverted It's too perverted, you heard it So deep that it
becomes fossilized
Too many times I find my style between MC's inside
[Incomprehensible] but they swallow their tongues like seizures
I pierce flesh and strike nerves like acupuncture Or acupressure, feel the wrath of my mathematics
Kinetics, you need a local anesthetic
'Cause your system has acquired an immune deficiency
Overwhelmed by my telepathy, no sympathy Cursed [Incomprehensible] but graceful like calligraphy
And [Incomprehensible] like [Incomprehensible] was not to MC
Life givin', yet I'm still deadly
And before you step to me, remember it's too perverted It's too perverted
It's too perverted, you heard it
It's too perverted
It's too perverted, you heard it Master rhymin' so I'm steadily climbin'
I rip through mics like when my dick strikes the hymen
Total controller, some claim to be bolder
But they rotate around the lunar, I keep it solar, polar Who vibrates and radiates
Thunder, lightning, earthquakes from North to South
East to West test the best get sprayed
Drop jewels, burn papes, till my ride escapes
Awkward flow to some it's even unorthodox Bone crushin', life threatnin' like the jaws of a crocodile
Your hunny wishes to stay a while

And I told her she could stay, am I foul or just too perverted?
