Long Highway

Day Of Fire

Drive into the unknown
We don't say a word, turn up the radio
Miles of silent conversations
Searching through the stations, we sink into the road
We just drive when it's not okay
We just drive, accelerate
Down this long highway we'll find our way
On this long highway to say the things
That we've been so afraid to say
We'll find our way through lies and pain
It'll be okay, yeah, yeah
Headlights shine on the street signs
Watch them passing by, reflections in your eyes
Hearts broken by the distance
Love turned to resistance leaves me so alone
We just drive when it's not okay
We just drive, accelerate
Down this long highway we'll find our way
On this long highway to say the things
That we've been so afraid to say
We'll find our way through lies and pain
It'll be okay, yeah, yeah
And we'll hold each other strong
As we weather through the storms
Even though the road is long
We'll drive all night just to make our way back home
Down this long highway, yeah, we'll find our way
On this long highway to say the things
That we've been so afraid to say
We'll find our way through lies and pain
It'll be okay, yeah, yeah
It'll be okay, yeah, yeah
It'll be okay, yeah, yeah
