

Cold Day In Heaven

[Delta Rae](#)

Chorus:

It's a cold day in hell,
a cold day in heaven
we watched the stars fell and oh you know we let them
we said it'd never happen,
we said it'd never happen to us
Verse 1:
Keep thinkin' 'bout when we started
so innocent
your heart was a mess, and I was lost in it
Keep thinkin' 'bout the day that we met
and how you've changed
you loved me once, and now you bring me pain
Keep thinking that I will say goodbye
made a promise that you won't see me cry
again
Chorus:

It's a cold day in hell
a cold day in heaven
we watched the stars fell and oh you know we let them
we said it'd never happen,
we said it'd never happen to us
but it's a cold day in heaven my love
Verse 2:
The sky's dark and the flowers are frozen
the world is hushed
our guardian angels have turned their back on us
something broken
I though I could fix it, but it's broken me
Your kisses are poison and all your words are treason
I'm walking away, you won't here me say
I love you
