Nancy (Let Your Hair Down for Me)

Prefab Sprout

Weekday mornings find me moody
I kiss my wife goodbye,
I drive the boss to work each day.At the office, no one's watching
Can I catch her eye?
The hours squeeze by, the boss works late
Still I'll always wait and drive her home with me and say...Nancy let your hair down for me
Nancy leave the office behind, then
Nancy let that fall off your shoulders
I'll be your husband once again
NancyNancy I don't mind I'm happy working overtime
Nancy let your hair down for me
Nancy leave the office behind, then
Nancy let that fall off your shoulders
I'll be your husband once again
