

O.H.B. (One Hot Bitch)

Racer X

She's a dancer, she's a midnight queen
A fast movin' woman, moves her moter mean
She affects me with her sex machine
God dammit, she's the ultimate dream
What a grinder, she can blow you down
Got me humpin', like a hot runnin' hound
She can glind ya with her skin-tight sheen
She'll bring it on long as the money is green
My piston's pumpin', can feel her steam
I love the metal inside her machine
One hot bitch got me begging for more
One hot bitch got me down on the floor
One hot bitch, I gotta get in between
And I know that you know what I mean
Since I found her, got me hypnotized
Eyes are rollin' to her serpentine
Look around her, glowin' in my sight
Like a star burnin' out in the night
I'm in danger, when I place my bet
I lost my mind and I'll never forget
She's a stranger but I know her well
I'm in heaven, 'cause she's hotter than hell
Swingin' out she is a merry-go-round
I'd love to feel her when that Mary goes down
One hot bitch, she's gonna even the score
One hot bitch, she's got pussy galore
One hot bitch, keep you comin' for more
More, more, more, more, more
My piston's pumpin', can feel her steam
I love the metal inside her machine
I been to cheetah's and I seen what she's done
Been 'round the world and she's number one
One hot bitch, she's gonna even the score
One hot bitch, she's got pussy galore
One hot bitch, keep you comin' for more
One hot bitch got me begging for more
One hot bitch got me down on the floor
One hot bitch, I gotta get in between
And I know that you know what I mean
She is nothin' like I've ever seen
And I know that you know what I mean
