

# Are You Sure Waylon Done It This Way

Clint Black

Lord, it's the same old thing  
Fiddle and guitar  
Where do we take it from here?  
Rhinestone suits new shiny car  
Well, It's been the same way for years  
It's bound to change Somebody told me when I came to Nashville  
"Son you finally got it made"  
Ole Waylon made it here and we're all sure that you will  
But I don't think Waylon done it this way  
No, I don't think Waylon done it this way Ten years on the road making one night stands  
Speeding my young life away  
Tell me one more time just so's I'll understand  
Are you sure Waylon done it this way?  
Did ole Waylon done it this way? I've seen the world with an eight piece band  
Looking at the back side of me  
Singing my songs one of his now and then  
But I don't think Waylon done it this way  
No, I don't think Waylon done it this way Woke up this morning, it was drizzin' rain  
Around the curve come a long black train  
Heard somebody yodel and a hobo moan  
Jimmy he's dead he's been a long time gone Yeah  
(Woop,woop,woop)
