The Storm

Poco

Look at all the raindrops fall from the sky tonight
Just so many teardrops searchin' for a place to hide
Fallin' from the dark clouds descendin' on their way
Baby aren't those raindrops just like you and I
Won't you listen to your heart
Tell me what you hear
Is the sound of thunder comin' much too near
Runnin' from The StormIcy winds are blowin' autumn leaves across the sky
There's no way for us to catch them even if we try
Hiding from the dark clouds that send them on their way
Baby aren't those fallin' leaves just like you and I
Won't you listen to your heart
Tell me what you hear
Is the sound of thunder comin' much too near
We're runnin' from The StormWon't you listen to your heart tell me what you hear
Is the sound of thunder comin' much too near
Look into your heart and tell me what you see
Is it just a day or how it has to be
Runnin' from The Storm
Runnin' from The Storm
