Progress of Elimination

Majority Rule

Antiquated towards achievement blame liaison the
souls of the workers would they not feel
the burden of woes had the tyrannous
not placed it there reform decay now or
never show me the way now or never
reform decay modernization has sealed
our fate for a century the marriage of
government and gave birth to dysfunction
of industry where in notions of equality
were controlled wage slaves are
maintenance of this struggle for change
take it back attack attack the new battle
hymn cry realize your time choose your
path I've seen the pressures of time I've
seen the whirlwind unwind.
