

# Inception

## Logic

I got a date with destiny  
My heart says yeah but can't convince the rest of me  
I tried so hard to make it with no recipe  
My selfish ways caught up and got the best of me  
I need redemption no need to mention my past  
Cause all that matters now is bigger than diamonds and cash  
The glitz the glamour the lights the camera the action  
The stage the fans the speakers blatin'  
You know I'm wanted I need it don't doubt it I can't live without it  
It's just everything I dreamed of  
It's everything I've ever wanted  
But is it really truly in my plans  
Or did God mix up my blue prints  
Did he have it right there in his hands?  
Anybody give me a hint  
I can feel it now I know it's coming  
And I don't give a fuck what anybody say  
I've fallen I've risen I chose to select to dismiss an incarnation through these bars created-a prison  
And I intend to do the time and the sentence that's given  
25 to life yeah that's how I'm living  
Sometimes I wonder if I'll ever make it  
But there's only way I'm a know  
I'm like a seed planted in the dirt  
Feels like I've been waiting forever to grow  
And maybe today is the day  
And maybe tonight is the night  
But one thing that I know for sure  
This time I'm a get it right
