Lead Injection

Sodom

Fire power in the hand of a madman
Hell is gonna burn
Crushing 'em down, pounding away
At the point of no returnPainful screams growing near
Metal cutting your breast
Laughing when you lose control
Pollution guaranteeCreeping and crawling why do you cry?
Pathetically prayers by your side
Caught beneath my blood erection
Lead injectionAssault attack, the rifle's blast
You are my soul insane
A product of a brutal world
Killing just a gameHatred burns with desolation
Pleasure for the blood
This must be the dead man's day
The truth in crimson mudCreeping and crawling why do you cry?
Pathetically prayers by your side
Caught beneath my blood erection
Lead injectionCreeping and crawling why do you cry?
Pathetically prayers by your side
Caught beneath my blood erection
Lead injectionSwinging the judgment's hammer down
Glory 'til the end
Now you wish you had a God
Evil in your brainBullets left the gun straight ahead
Awaiting your cancerous breath
Will touch you when you're still alive
And left you when you're deadCreeping and crawling why do you cry?
Pathetically prayers by your side
Caught beneath my blood erection
Lead injectionCreeping and crawling why do you cry?
Pathetically prayers by your side
Caught beneath my blood erection
Lead injection
