Genocidal Raids

Therion

Nascency of evil
Money genuflect
Inner mind excresence
Depraving objectDollar paranoia
Dominance of hate
Enchanting like a drug
They need it desperateGenocidal raids
They have praised the Oath
In Unitied States
Now they sell deathAnd they will die
Why buy death?Die a certain deathWhy
Must we take this hell?
Lunacy
Of the human race
Some are starved
Others live in galore
Just ain't right
That some are getting pittanceCarrion of a dog lying dead
Disembowl this animal eat the fleshThey're coming in the night
And they have to fight
About a piece of offal
That's the feral worldEat the flesh and get sick, see the dead
Fatal life slips away get no help
They're coming in the night
And they have to fight
About a piece of offal
That's the feral worldMultinational
In South Africa
Give oppression gold
Help them blast the BlackThen you will die
Why buy death?Why?
