# Time to Believe

## Forever JONES

Chorus
Time to believe in what God said
Time to believe in what He promised.
We see small He sees great.
When we speak doubt He speaks faith
Time to believe in what God said
[Soloist sings chorus alone, then again with choir]

Solist:
Don't allow your past to predict where you're going
Or lead you on to believe you can't go on
Because God's promise is true and what He said He will do
It's time to believe, oh believe, I will believe

Choir:
I will believe in what God said
I will believe in what He promised
When I see small I'll see great
I spoke in doubt now I'll speak faith
I will believe in what God said

I do believe in what God said
I do believe in what He promised

When I see small I'll see great
I spoke in doubt, now I'll speak faith
[2x]

I do believe
I do believe
I do believe
It's time to believe in what God said
