

T'd Up

Russ

[Hook x2: Russ]

Bitch I'm T'd up

I think I drank three much

I been mixin' wit' it too

Couple women comin' through

They gon' wanna' T up wit' me too[Verse 1: Russ]

Tanqueray got me started

I think I need a girl from Harlem

Don't act like you

Don't wanna' get involved with me

TLC got girls tryna' creep

Don't catch feelings it ain't that deep

Thrown in the studio, gone fishin'

Tryna' catch me a freak, damn

Need two rooms everytime I land

One for hoes, one room for the bands

She fell in love cause of who I am

I don't give a fuck, gotta' stick to the plan

No strings girl, gotta' cut those loose

You and your friend, that's one plus two

You'll be waitin' here all night

Waitin' for me to love you[Hook x2: Russ]

Bitch I'm T'd up

I think I drank three much

I been mixin' wit' it too

Couple women comin' through

They gon' wanna' T up wit' me too[Refrain: Russ]

I been T'd up that's a routine

Never switched up wit' a new team

I been spendin'

I been stackin'

I still got the same old hoopy

I been helpin' out the fam

I'm just tryna' do my best

Feel the pressure everyday

Gotta' get this off my chest[Verse 2: Russ]

Always had faith it would go my way

I been T'd up for like six years straight

I know what's like to do a show with less people in the crowd than the ones on stage

Bugus and me never switched up
Always got weed we can twist up
Never let an outsider in too quick
Got the whole game zip, zipped up[Hook x4: Russ]
 Bitch I'm T'd up
 I think I drank three much
 I been mixin' wit' it too
 Couple women comin' through
 They gon' wanna' T up wit' me too
