

# Tides

## Good Weather for an Airstrike

You leave with the tide  
And I can't stop you leaving  
I can see it in your eyes  
Some things that lost their meaning  
Devote to me  
Alone with me  
Say with me  
"Why would you ever want to leave?"

[Hook] Fade out of view  
I wouldn't do that to you  
I wouldn't just leave us alone  
When we could be close, close, close  
Hold me close when you could leave us alone  
Why would you just leave us alone  
When we have been close, close  
[Hook] x2
