

Organized Lie

Living Sacrifice

Subvert the conscious mind of us all
Become the one who is the fraud
Deny the evil that pervades
Deny the sin that fuels the way Pull down the blinders, rip down the shades
See the world as it has been made
The laws of life point the way
The ordering of every thing Deny the conscience of righteousness
Paint broad strokes of pioussness
Everyone believes in something
Everyone believes Just because you don't call it God
Does not mean belief's not involved
Just because you don't call it God
Does not mean belief's not involved Random organized lie
Random organized lie Pull down the blinders, rip down the shades
See the world as it has been made
The laws of life point the way
The ordering of every thing Random organized lie
Random organized lie
